

## Civil Engineering Design & Consultancy

### Key Facts

**ESTABLISHED:** 1991

**EMPLOYEES:** 200+

**TURNOVER:**

2015 – EUR 4,013,001.74  
(RON 17,943,736)

2014 – EUR 4,985,004.25  
(RON 22,289,948)

2013 – EUR 6,448,019.19  
(RON 28,831,673)

### Key Projects

#### DESIGN

- Timisoara-Lugoj Highway
- Arad Highway Bypass
- Arad-Oradea Expressway
- Craiova-Calafat National Road
- Piata Presei Bucharest Underground Passage
- Bucharest Henri Coanda International Airport Runway
- Abu Dhabi Shipyard
- Danube River Pier Works
- Danube Black Sea Channel Navigation Locks Cernavoda, Ovidiu, Agigea
- Bucharest water supply and wastewater network

#### CONSULTING

- Bucharest-Ploiesti Highway
- Deva-Orastie Highway
- Orastie-Sibiu Highway
- Nadlac-Arad Highway
- Constanta Mihail Kogalniceanu International Airport
- Romanian Airlift Base 90 runway at Henri Coanda International Airport

## Meeting the infrastructure needs of the road, air and water transport sector

### Mission

Through authentic professional excellence, we are committed to the advancement of a sustainable Romanian infrastructure network, achieving excellent results for our clients and employee fulfillment.

### Who we are

One of the most established civil engineering, design and consulting companies in Romania, Consitrans specializes in integrated and multi-disciplinary solutions in the Romanian infrastructure sector. For more than a quarter century, we've been transforming travel and trade through our relentless pursuit of technical excellence in challenging environments. Our engineers, designers and management consultants are committed to meeting our clients' challenges with fresh analysis and tailored, long-term solutions.

We aim to play an ongoing role in European Union programs, and believe transport infrastructure is a catalyst to activating long-term economic growth in Romania. Through rigorous thinking and uncompromised responsibility within the communities and environments where we work, we are proud to contribute to a more sustainable future and improved quality of life.

### Areas of Expertise

#### ENGINEERING DESIGN

including Roads & Highways, Bridges & Structures, Aviation, Ports & Harbors, Waterways and Water Management Solutions (water supply, wastewater, rainwater)

#### TECHNICAL STUDIES

including prefeasibility and feasibility, land and topographic surveying, geographic, geologic, hydrotechnical and water management, traffic management and audit, environmental protection

#### CONSTRUCTION SUPERVISION

including inspection and technical assistance

#### CONSTRUCTION/PROJECT MANAGEMENT

including procurement and preparation of tender documentation, cost-benefit and risk analysis, cost management, contract administration and management during Design and Construction Phase, quality control and management, health and safety

Consitrans is ISO 9001, ISO 14001 and ISO 18001 certified, and holds authorizations and certifications from local authorities and associations.
